

SOLITARY BEE DISCOVERY TOUR

EVENT BY BEE TOGETHER

SUNDAY

19

May 2019

14H00 – 16H00

As part of the Biodiversity Week from 18 to 26 May at the [Biodiversum](#), [Bee Together](#) and the [natur&ëmwelt](#) Kanton Réimech are organising an event about wild solitary bees near Wintrange.

We will observe and try to determine the species of wild solitary bees that we encounter during the excursion. Our guide will explain their lifecycle and what actions we can take to improve their sources of food and habitat.

Children will welcome this opportunity to discover our natural world.

As places are limited, registrations are required on or before 15 May. The precise meeting location will be sent to those who register.

In the case of poor weather conditions, the event will have to be rescheduled.

Registration link :

<https://www.eventbrite.com/e/solitary-bee-discovery-tour-tickets-59150827718>

There is no cost for the event though Bee Together would appreciate donations based on the principle of: Pay What You Wish. The money collected from the event will be used by Bee Together to purchase seeds and/or fruit trees for their projects.
